

MODEL 250XP

12" Capacity Hand-Fed Chipper

For a quarter century, 12-inch capacity Brush Bandit® disc-style chippers have served tree care professionals and municipalities around the world. With over 20,000 units in operation, the Model 250XP is easily the **most widely used Brush Bandit chipper** in the lineup. Officially rated as a 12-inch capacity chipper, the Model 250XP features a huge 12.5-inch by 19-inch throat opening, fed by powerful dual feed wheels mounted in Bandit's proven **Slide Box Feed System**.

REDUCE YOUR LABOR COSTS

The powerful dual-wheel feed system consists of two spring tensioned feed wheels, mounted in Bandit's proven slide box system. With 1,600 pounds of pulling force from each feed wheel, the 200UC effectively pulls trees and large limbs into the chipper. Material is folded and crushed with little extra trimming, repositioning or cutting larger pieces into shorter lengths.

MAXIMIZE YOUR UPTIME

The most common maintenance items are easy to access on Bandit chippers, so daily maintenance is quick and simple. Bolt-in knives are easy to change through the chipper hood, and all service areas are conveniently located, including all grease points. And a sloped infeed tray allows material to flow smoothly into the chipper.

SUPER CHARGE YOUR PRODUCTION

Bandit chippers are easier to feed, so you'll be more productive during the day. Bandit's unique Slide Box feed system and powerful dual horizontal feed rollers, which are 9" wide by 10.625" in diameter and powered by a pair of 32.3 CID hydraulic motors, crush and compress material, easily guiding it to the drum.

PACK TRAILERS FULLER

Bandit is known throughout the industry for packing trailers fuller, reducing the number of trips to the dump site. Bandit chippers feature smooth discharge transitions eliminate restrictions and deep knife pockets propel chips with tremendous force.

COMMITTED TO QUALITY & SERVICE

The Bandit Backbone™ Support

The Bandit Backbone is Bandit's commitment to customer service and support. It's always been a cornerstone of Bandit's philosophy, and today that backbone is stronger than ever. If you own a Bandit hand-fed chipper – regardless of the age, hours, or warranty status – the Bandit Backbone is here to support you.

We Are Here to Support You

There are nearly 200 dealer locations in the US and 61 international dealers to support you. They are factory trained. Plus we have an experienced parts and service department supporting you and our dealers.

MODEL 250XP FEATURES

- **Last Chance Cables (standard)**
Stops/reverses the feed wheel when pulled in case of an emergency
- **Operator Safety Control Bar (standard)**
Wraps around 3 sides of the infeed chute & controls the direction of feed wheels
- **Wood Pusher Paddle (standard)**
Used to feed small wood debris into the chipper
- **Chipper Hood Pin w/Padlock (standard)**
Prevents unauthorized access to the disc or drum
- **Chipper Hood Engine Disable Plug (standard)**
Prevents engine from being started without the hood pin in place
- **Hydraulic Bottom Bump Bar (option)**
Stops feed wheels via mechanical connection when bumped, diverting hydraulic power away from the feed wheels
