

# MODEL HB-20

## Handlebar Stump Grinder

The compact HB-20 Stump Grinder is the **ideal solution** for grinding stumps in tight and hard-to-reach areas not accessible by larger grinders. With the **unique pivot design** and **self-propelled wheels**, the Model HB-20 allows for ease of operation while reducing operating fatigue. Take your operation to the next level by adding a Bandit® handlebar stump grinder to your fleet.

### MANEUVERABLE AND POWERFUL

- **25 horsepower** engine
- Designed for maneuvering in **tight spaces**
- **Center-pivot design** for effortless grinding

### Pivoting Cutterwheel

The unique **pivot-action base** provides a sturdy platform for grinding while the operator swings the cutterhead from side to side. The weight is distributed and well-balanced so that the wheels are not likely to creep or rotate, allowing the operator to direct more of his energy into the pivoting cutterhead action rather than stabilizing the unit as a whole. This can seriously **reduce operator fatigue** in managing this durable unit's 700 lbs of weight and power.

### Belt-Driven Power

The **15-1/4" diameter cutterwheel** is driven by a belt directly from the motor. Engaging the unit is as simple as disengaging the clutch. **Easy-to-use controls** are intuitive and positioned to provide good visibility while grinding. This reliable system delivers power directly to the cutter wheel with **virtually no parasitic power loss**.

### Class-Leading Performance

With a **30-1/2" width** and **self-propelled wheels**, the HB-20 will easily go where other stump grinders can't.

### Narrower Version Available

The Model HB-20 **narrow version** is 25" wide, allowing it to navigate tight passages with ease.

### Specifications Standard Dimensions:

#### Self-Propelled:

<b>LENGTH:</b> 90" (handle down) 65.5" (handle up)	<b>CUTTER HEIGHT:</b>	22"
<b>HEIGHT:</b> 47-1/2" (handle down) 65" (handle up)	<b>CUTTER DEPTH:</b>	22"
<b>WIDTH:</b> 30-1/2"	<b>CUTTER WHEEL:</b>	15-1/4" diameter x 3/8" Greenteeth Wheel
<b>WEIGHT:</b> 700 lbs.	<b>DRIVE SYSTEM</b>	Self-Propelled
<b>FUEL TANK:</b> 4.4 gallons	<b>ENGINE OPTIONS:</b>	25 HP
<b>HYDRAULIC TANK:</b> 2 gallons
